- B. The application deadlines for each permit type are as follows:
 - 1. For parades or races, an application for a permit shall be filed with the permit office at least 90 calendar days and not more than 180 days before the parade or public assembly is proposed to commence. The director of police may waive the minimum 90 calendar day filing period and accept an application filed within a shorter period if, after due consideration of the date, time, place and nature of the parade or race, the anticipated number of participants, and the city services required in connection with the event, the director of police determines that the waiver will not present a hazard to public safety, health and welfare.
 - 2. For public assemblies falling outside the definition of "spontaneous events" as defined above, an application for a permit shall be filed with the permit office at least 15 business days and not more than 90 calendar days before the public assembly is proposed to commence.
- C. The application for a parade/race or public assembly permit shall set forth the following information, as pertinent:
 - 1. The name, address and telephone number of the person(s) seeking to conduct such event;

2. The names, addresses and telephone numbers of the headquarters of the organization for which the event is to be conducted, if any, and the authorized and responsible heads of the organization;
3. The requested date of the event;
4. Any route to be traveled, including the starting point and the termination point;
5. The plan for the notification of affected residents and businesses along said route and the at least seven (7) consecutive days over which that notification shall be posted, beginning no later than three (3) days after the notification of receipt of the permit application
 - i. Over the same seven (7) days, it shall be the duty of the Permits office to further notify affected residents, including but not limited to targeted neighborhood posts on Nextdoor or other similar websites
 - ii. This section's requirements shall be waived in the case that applicant proposes to make use of a route template, as defined below
6. The approximate number of persons who, and animals and vehicles which, will constitute such event and the type of animals and description of the vehicles;
7. The hours when such event will start and terminate;

10. The time at which units of the event will begin to assemble at any such area;
11. The intervals of space to be maintained between units of such event;
12. If the event is designed to be held by, or on behalf of, any person other than the applicant, the applicant for such permit shall file a letter from that person with the permit office authorizing the applicant to apply for a permit on his or her behalf;
13. The type of event, including a description of activities planned during the event;
14. A description of any recording equipment, sound amplification equipment, banners, signs or other attention-getting devices to be used in connection with the event;
15. The approximate number of participants (spectators are by definition not participants);
16. The approximate number of spectators;
17. A designation of any public facilities or equipment to be utilized; and
18. Any additional information that either the permit office or Director of Police finds reasonably necessary to make a fair determination as to whether a permit should be issued.

Sec. 12-52-5. - Fees.

A nonrefundable fee of \$ _____ to cover administrative costs of processing the permit shall be paid to the city by the applicant when the application is filed, except in cases where the parade or race will require the partial or complete closure of public streets or diversion of the normal flow of vehicular traffic with structures, an additional nonrefundable fee of \$100.00 shall be paid when the application is filed.

Sec. 12-52-6. - Police protection.

- A. The director of police shall determine whether and to what extent a parade or public assembly will reasonably require additional police protection to control traffic and preserve public safety.
- B. The director of police shall base his decision on the types of public safety measures required for the proposed parade or public assembly on the size, location, duration, time and date of the event, the number of streets and intersections blocked or affected by the event, the need to detour or preempt citizen travel and use of the streets and sidewalks and realistic concerns and threats of social disorder, personal injuries, property damage and individual rights violations arising from the event. The speech content of the event shall not be a factor in determining the amount of police protection necessary, unless past experiences with similar events have demonstrated a need for additional police protection to protect event participants, spectators, passers-by and law enforcement personnel, and to preserve free speech and assembly rights of event sponsors and participants.
- C. The Director of Police shall determine if police protection for the parade or race is deemed necessary. If so, he or she shall so inform the applicant for the Parade/Race permit. The applicant then shall have the duty to secure the police protection deemed necessary by the director of police at the sole expense of the applicant, unless qualifying for full or partial exemption as defined in subsection (i) below. The director of police shall have the authority to enter into agreements with any applicant for additional police protection including security for the costs thereof.
 - i. If applicant can provide a properly-vetted estimate of the impact of his or her event on the public revenues, as defined by the Mayor or his or her designee, such estimate of revenues can be used to offset, in part or in whole, the cost of police protection as required above.
 - ii. Any hourly minimums instituted by the Director of Police Services at his discretion shall be waived in the case that applicant uses a parade/race route template, as defined below
- D. The director of police shall be fully authorized to implement and require reasonable steps to forestall potential disorder and civil hostilities among participants, observers and opponents of a proposed event, including but not limited to: zoning of areas in proximity of the event site, crowd control measures, metal detector searches of all entrants to the event site, traffic rerouting, cessation of street parking, and use of undercover officers.

Any such measures shall be narrowly tailored to advance the city's interest in public safety and protection of the rights to free speech and assembly.

- E. The Director of Police and/or other Administration officials shall collaborate with appropriate stakeholders to maintain a list of standard public parade and race route templates.
1. These templates shall be constructed to minimize the use of motorized vehicular right-of-ways, particularly at highly trafficked times of day, and to maximize the use of pedestrian right-of-ways. Similarly, therefore, these templates shall be constructed to minimize the cost of providing police protection.
 2. The Director of Police shall bring these routes forth for Council approval at the first meeting in January each year, unless the routes have not changed from the previous year, or upon request of any Council member.
 3. The Director of Police shall include in this presentation a standard cost of providing police protection for each route template, pursuant to the standards in this section.

Sec. 12-52-7. - Standards for issuance.

- A. The permit office, after consultation with the director of police, shall approve or deny, by five business days, a permit as provided for herein when, from a consideration of application and from such other information as may otherwise be obtained, it finds that:
1. The conduct of the parade or public assembly will not substantially interrupt the safe and orderly movement of other pedestrian or vehicular traffic contiguous to its route or location;
 2. The conduct of the parade or public assembly will not require the diversion of so great a number of city police officers to properly police the line of movement and the areas contiguous thereto as to prevent normal police protection of the city;
 3. The concentration of persons, animals, and vehicles at public assembly points of the parade or public assembly will not unduly interfere with proper fire and police protection of, or ambulance service to, areas contiguous to such public assembly areas;
 4. The conduct of the parade or public assembly is not reasonably likely to cause injury to persons or property;
 5. The parade or public assembly is scheduled to move from its point of origin to its point of termination expeditiously and without unreasonable delays en route;
 6. Adequate sanitation and other required health facilities are or will be made available in or adjacent to any public assembly areas;
 7. There are sufficient parking places near the site of the parade or public assembly to accommodate the number of vehicles reasonably expected;
 8. The applicant has secured the police protection, if any, required under section 12-52-6 et. al.;

9. The applicant and the Permits office have properly notified affected residents and businesses, if any, as required under section 12-52-4 (C) (5)
 10. The application has not generated to the Permits office any written or verbal opposition from affected residents, in which case see subsection 12-52-7 (B) below
 11. Such parade or public assembly is not for the primary purpose of advertising any product, goods or event that is primarily for private profit, and the parade itself is not primarily for profit. The prohibition against advertising any product, goods or event shall not apply to signs identifying organizations or sponsors furnishing or sponsoring exhibits or structures used in the parade;
 12. No parade or public assembly permit application for the same time and location is already granted or has been received and will be granted;
 13. No parade or public assembly permit application for the same time but not location is already granted or has been received and will be granted, and the police resources required for that prior parade or public assembly are so great that in combination with the subsequent proposed application, the resulting deployment of police services would have an immediate and adverse effect upon the welfare and safety of persons and property; and
 14. No event is scheduled elsewhere in the city where the police resources required for that event are so great that the deployment of police services for the proposed parade or public assembly would have an immediate and adverse effect upon the welfare and safety of persons and property.
- B. No permit shall be granted that allows for the erection or placement of any structure, whether permanent or temporary, on a city street, sidewalk or right-of-way unless either no opposition has been forthcoming from the affected public or, in the case of opposition, advance approval for the erection or placement of the structure is obtained from the City Council.
1. In the case of opposition to a permit filed for the temporary closure of a public right-of-way, the Permits office shall immediately notify Council Administration and Council Records so that an item might be added to the next scheduled City Council agendas, or in the case that the agenda has already been published, to the immediately following City Council agenda
 2. Permit Cases shall be heard before the Council in both the Public Safety Committee and before the Full Council on the same day
 3. Permit Cases shall require a simple majority of members present for approval
 4. Upon the Council approving, denying, or amending a permit request, the Permits Office shall approve or deny the permit application within five business days, still subject to the conditions laid out above.

Sec. 12-52-8. - Nondiscrimination.

The permit office, after consultation with the director of police, shall uniformly consider each application upon its merits and shall not discriminate in granting or denying permits under this chapter based upon political, religious, ethnic, race, disability, sexual orientation or gender-related grounds.

Sec. 12-52-9. - Notice of denial of application.

The permit office shall act promptly upon a timely filed application for all permits, but in no event shall grant or deny a permit less than 48 hours prior to the event. If the permit office, after consultation with the director of police, disapproves the application, it shall notify the applicant either by telephone, facsimile, personal delivery or certified mail at least 48 hours prior to the event of his or her action and state the reasons for denial. The permit office shall develop procedures for the documentation of the proof of delivery and receipt of denial.

Sec. 12-52-10. - Alternative permit.

- A. The permit office, after consultation with the Director of Police or based on the feedback of the City Council, in denying an application for any permit, may authorize the conduct of the event at a date, time, location or route different from that named by the applicant. An applicant desiring to accept an alternate permit shall, within 24 hours after notice of the action of the permit office, file a written notice of acceptance with the permit office.
- B. An alternate parade or public assembly permit shall conform to the requirements of, and shall have the effect of, a parade or public assembly permit issued under this chapter.

Sec. 12-52-11. - Appeal procedure.

- A. Any applicant shall have the right to appeal the Permit Office's denial of a permit to the City Council. The denied applicant shall make the appeal within five (5) calendar days after receipt of the denial by filing a written notice with the permit office and a copy of the notice with the city comptroller. The City Council shall act upon the appeal at the next scheduled meeting following receipt of the notice of appeal, unless the agenda for said meeting has already been published, in which the Council shall act upon the appeal at the meeting following the next scheduled meeting.
- B. In the event that the City Council rejects an applicant's appeal, the applicant may file an immediate request for review with a court of competent jurisdiction.

Sec. 12-52-12. - Notice to city and other officials.

Immediately upon the receipt of a parade or public assembly permit application, the permit office shall send a copy thereof to the following additional persons, whom shall have the duty to validate that no undue impacts on other City services shall occur or, in the case of impacts being ancillary and reasonable, that those services are prepared:
